DRAMA PERFORMANCE: WHY CAN'T YOU DO IT YOURSELF

Synopsis

The time is now! Technology has progressed into the age of the “helping hand”. The “domestic robot” has reached the homes of the “Average Joe” to help ease their lives. But how will Artificial Intelligence affect our ability to do things for ourselves? We look into the lives of three brothers, two of whom rely heavily on A.D.A.M. (Advanced & Developed Artificial Machine) to make it through their daily lives.

From a story originally written by a group of enthused and talented P5 and 6 boys from Ying Wa Primary School’s 2013-14 cohort, join our drama team on a journey to see what will happen to us sooner rather than later.
